The Journal of Young Reporters

From Badminton to culture...

Today, all the young players and their delegations visited two main spots of our city of Clermont Ferrand : the ASM experience and the «Aventure Michelin». These places are one of our city's main visit spots as they represent two of Clermont Ferrand's cultural points: rugby

and wheels. Both of the museums are owned by Michelin, which holds a huge role in our city.

The young athletes were extremely pleased to learn more about our city, its history, and importance in the world.

They were able to contemplate the «Bouclier de Bremaus» recently won

by our rugby team at the Top 14, making them France's biggest rugby team and our city's pride for the second time in history.

All the delegations were glad to participate to this pedagogic afternoon full of friendliness and enthusiasm after their competitions.
